ADDL INFO.
Folder

TO: Board of Selectmen
FROM: Don P. Johnson, Town Manager
SUBJECT: AT & T BOND

The attached memo from David Abbt, Engineering Administrator, recommends a partial release of the bond which is being held to insure completion of work on an AT& T project. I concur with David and recommend that the Board authorize the release of \$20,000.00 of the \$25,000.00 bond.

TOWN OF ACTON
INTERDEPARTMENTAL COMMUNICATION
DECEMBER 16, 1986

TO: DON P. JOHNSON, TOWN MANAGER
FROM: DAVID F. ABBT, ENGINEERING ADMINISTRATOR
SUBJECT: AT&T BOND

David Abbt

As you probably remember AT&T installed a conduit for a fiberoptic cable along the northerly portion of Central Street this past fall. The site contractor was the Danella Companies of Plymouth Mtg., PA. During construction the Engineering Department made several inspections and recently made a final inspection of the site (Dec. 5 & 16th) and found the work satisfactorily completed. However, since this work was completed late in the season there is a possibility that the road patch will settle or the joints may need resealing. Also, portions of the road shoulder were loamed and seeded in December so additional work may be needed in the spring in order to get a suitable growth of grass established.

In order to obtain a "Permit to construct within a public way" the Selectmen required a \$25,000.00 cash bond to be posted with the Town Treasurer. Roy Wetherby called last September to say this bond had been posted. It is my recommendation that this bond can be released by the Board of Selectmen provided the Town either:

1. Retains \$5000.00 of the bond to insure completion of the possible work described above, or
2. Requests that the contractor post a substitute insurance bond for \$10,000.00 to cover the same work.

This department recommends Alternative 1.

FILE COPY

September 14, 1987

TO: Don P. Johnson, Town Manager
FROM: David F. Abbt, Engineering Administrator *D.A.*
SUBJECT: Release of the AT & T Bond

This memo concerns the AT & T Bond posted by the Danella Companies in connection with the installation of a fibre optic cable conduit in north Central Street during the fall of 1986. Since my memo of December 16, 1986 several things have happened:

1. The Selectmen on January 27, 1987 voted to reduce the bond from \$25,000 to \$5,000.
2. We inspected the patching work for settlement this past spring and found several areas that needed attention. First, the section of the patch south of Littlefield Road had settled, and second, the three sections of berm that were patched last fall needed to be replaced.
3. The contractor agreed to do this work and as of last week this work has been completed to our satisfaction.

Therefore, in my opinion the Board of Selectmen can now release the remaining \$5,000 portion of the original bond. Please note the new address of the Danella Company below.
